Model: MGB

Publication No. AKD 3547

Reference: Exhaust Assembly

Page No. MA 26

A replacement three piece Exhaust Assembly is now available replacing the old type formerly utilizing intermediate pipes.

The new three piece exhaust system has been introduced into vehicle production commencement with the 1969 model year.

The three piece unit interchanges completely as an assembly. Individual sections of the three piece unit will not directly interchange with sections of the five piece unit, without slight modifications.

Part numbers and prices of the new three piece unit are found on the attached sheet.

Stocks are now available, so order now.
