

TECHNICAL SERVICE BULLETIN

NO. 71 G 19

October, 1971

SUBJECT:

Pre-Delivery Operations
Safety Related Items

MODELS:

All Models

Although inspection and correction of safety related items already forms part of the P.D.I. schedule, we wish to emphasize the importance of ensuring that each and every one of such devices are in proper operating condition.

In the event that any difficulty is being experienced in regard to these items, please advise your Distributor's Service Manager immediately for remedial action. Under no circumstances may any vehicles be delivered to the public with deficiencies in the pre-delivery schedule.
